System & Enterprise Architect, Custom Software Eng. Sen. Mgr.
Health & Public Services (09/2022 – now)

- Managing technically the digital transformation for a Public Safety client. Replacing ~800 Systems and centralizing all data. Caring about huge, structured Data 200PB+ and a concurrent App. Load of ~150k Users in an always-Up System
- Leading the Teams agile (120+ people incl. Diff. vendors), technically, budget driven focusing on scope and time.

Tech. Stack: K8S, OCI, Azure, React, Typescript, Java, Spring, Kotlin, IntelliJ IDEA, VSCode, Terraform, Helm, Microservices, Serverless, SAP Hana, NEO4J, Postgres, Oracle DB, Redis, NoSQL DB (Cassandra), APIGEE, APISIX, ISTIO, Kafka, FIGMA, Restful API, Oracle IAM, GITLAB

Business Unit Lead, Entrepreneur – H&PS
Cloud Technology Studio (03/2022 – now)

- Grew a cloud-native Delivery-focused Business Unit from scratch within 1.5 years, driving exponential growth and achieving a robust team of over 80 skilled professionals.
- Always prioritized Customer Centricity and Chargeability while effectively managing and leading the team, leading by example to ensure a customer-focused approach and optimal resource utilization.

Global Enterprise Architect, Custom Software Eng. Sen. Mgr.
Global CPG Company – Rev. > $60 Billion (2021-2022)

- Designing a global enterprise architecture for "Big Data" analytics, leading multiple agile teams ~60 people.
- Innovative big data analysis and visualization for standardized global market evaluation. Shaping the Business Process with the Key-Stakeholders and Top-level Management

Tech. Stack: SalesForce, Azure, Azure UDL, Azure Databricks, Restful API, AWS, .NET, C#, MS AD

Global App./Enterprise Architect, Custom Software Eng. Sen. Mgr.
Global CPG Company – Rev. > $45 Billion (2015-2021) (US, EU, CN)

- Developing an enterprise architecture to replace 10+ systems in the core, high-revenue markets. Leading by example a global team, with a "follow the sun" development approach! Around 100 people/15 Scrum Teams in multiple locations
- Collaborating with technology leaders in application development and other architects to evaluate and continuously improve development methodologies.

Tech. Stack: K8S, .NET, C#, HTML5, CSS, MSSQL, Mobile iOS, JAVA, VB.NET, Python, MS AD

Principal Application Architect
Cosmetics & luxury company– Rev. > $38 Billion (2013-2015) (CN)

- Development of over 20 practical, efficient, innovative, and customer-oriented solutions, with a team of ~ 20 people located in CN, IN, PHL
- Achieved over 50% OPEX savings through the implementation of a new methodology, leveraging synergies, and standardization.

DETAILED PROFILE SUMMARY

Felix Tschörner brings over 15 years of experience as an Enterprise Architect and a proven track record of successful leadership. He has led teams, developed business units, and built strong account teams. His commitment to growth and vision for achieving significant business results have attracted over 80 professionals to join the company and strengthen its presence in the German Public Sector.

Felix's entrepreneurial spirit, visionary mindset, and ability to navigate the evolving landscape of cloud technologies have been crucial in understanding and addressing the needs of the industry. He has effectively aligned the team's expertise with the specific requirements of the Health and Public Services sector, delivering innovative solutions for digital transformation.

His strategic approach to team building and structuring has enabled the implementation of efficient and competitive operations. Felix demonstrates a continuous learning mindset and possesses the leadership skills necessary to guide and supervise teams. His clear vision and long-term perspective inspire others, while his adaptability and flexibility allow him to navigate change effectively.

Operating with integrity and taking responsibility for his actions and decisions, Felix ensures that his work aligns with core values.

His expertise in Enterprise Architecture guarantees the success of projects, particularly in the implementation of customized applications tailored to specific needs. From concept to global availability, Felix provides comprehensive support.

In summary, Felix Tschörner's achievements in creating a thriving business unit of over 80 professionals dedicated to cloud-native development and driving digital transformation in the German Health and Public Services sector reflect his entrepreneurial drive, exceptional leadership capabilities, and unwavering commitment to excellence.
